MEMORANDUM FOR: Chief, Information Review Staff

SUBJECT: Mandatory Declassification Request

REFERENCE: Request No. 75-452

1. Returned herewith are portions of the transcripts of the Warren Commission executive sessions of 23 June 1964 and 21 January 1964. Release of these documents is denied in order to protect sources and methods and other information related to our operational equities. Applicable exemptions of E. O. 11652 are 5B (2) and (3). Sanitization is impossible as it would result in an incoherent text. It is therefore requested that the National Security classification, Confidential, E2 IMPDET, be assigned by the Archivist of the United States to provide the required protection.

2. Form 3533 is also attached.
